

Photo Session Testimonial:

"We have done this at one SNF with great success! We had lots of their clients come to have their photo taken, and then we also took quite a few employees too. The following Monday, I went back with 8x10s that we had printed at Costco, and I put the digital copies online where the office could retrieve and email to the families. I also collected the emails of those that had them, and am able to send copies directly, and now I have their contact information too."
